REMARKS

The Office Action of 08/11/2006 has been carefully considered. In response thereto, the claims have been amended as set forth above. Reconsideration in view of the foregoing amendments and the present remarks is respectfully requested.

Claims 1-3 and 12-14 were rejected as being anticipated by Dadds. The claims have been amended to more clearly distinguish over the cited reference. Reconsideration is respectfully requested.

In particular, the claims have been amended to recite that by performing a superpositioning of the first output signal and the second output signal an undesired component of the first output signal is partially or wholly cancelled. No such feature is believed to be taught or suggested by Dadds.

Withdrawal of the rejections and allowance of claims 1-24 is respectfully requested.

Respectfully submitted,

Michael J. Ure, Reg. 33,089
